Japanese (A1)

PROFILE

Young, predominantly self taught web developer with experience from both frontend and backend web development. Design and UI enthusiast with basic knowledge of designing an efficient and user friendly UX environment. Always seeking inspiration and open to new ideas. Experienced in working on smaller scale projects (both static and dynamic websites) and working in a team.

EXPERIENCE

WEB DEVELOPER | 2019 - 2021

SMICHOVSKA SECONDARY TECHNICAL SCHOOL

In 2019, I joined my school's web development graduation course and worked on many small projects provided by the school, as part of my education. Thanks to this course, I acquired a series of practical skills in both programming and communication. Lastly, I was trained to effectively handle smaller projects according to client requirements.

FRONTEND DEVELOPER | 2022 - PRESENT

ACTUM DIGITAL

In the beginning of 2022, I joined Actum Digital for a two week internship as a part of my high school program, where students choose one company to intern with. This collaboration resulted in a job offer by Actum Digital as a junior frontend web developer that I accepted. My job is to build web components that are then integrated into larger projects using CMS.

EDUCATION

2013 - 2019 | SUNNY CANADIAN INTERNATIONAL SCHOOL

2019 - PRESENT | SMICHOVSKA SECONDARY TECHNICAL SCHOOL
